

FLORIAN Ene

AI Training Specialist | Blockchain Engineer | Systems Engineer

Romania | +40 769 203 300 | eneflorian@mail.com

PROFESSIONAL PROFILE

Highly experienced engineer (15+ years) specializing in AI training, blockchain, and cybersecurity. Active in the crypto ecosystem since 2009. Experienced in local LLM deployment, fine-tuning, and decentralized application development.

TECHNICAL SKILLS

AI & ML: PyTorch, TensorFlow, Transformers, MCP, X402, LLM fine-tuning

Blockchain: Smart Contracts, DApps, Cryptography, Cybersecurity

Programming: Python, Java, PHP, Dart, Kotlin

Tools: VS Code, Android Studio, CLI, Gravity

Hardware: Enterprise servers, Raspberry Pi, system design

PROFESSIONAL EXPERIENCE

Full-Stack Freelancer & Blockchain Consultant (2015–Present)

- Smart Contracts and DApps development
- Software architecture in Python, Java, PHP
- Blockchain security consulting
- AI agent integration

Hardware & Systems Project Lead (2010–Present)

- Enterprise server configuration
- IoT solutions with Raspberry Pi
- Hardware repair and integration

Cybersecurity & Early Crypto Researcher (2009–2014)

- Early Bitcoin adopter
- Cryptography and vulnerability research

EDUCATION

M.Sc. Systems Engineering – University Politehnica of Bucharest (2014–2016)

B.Sc. Engineering – University Politehnica of Bucharest (2010–2014)
